What motivated you to start in this field, and how would you describe your evolution up to this day?

"I first saw a modded guy and I wasn't sure.. this was in 2018.. years later my mind wrapped back and became interested..."

And how was your first time? Were you scared? Were you alone or with someone?

First time I was solo: scared? No. I. Was excited. Growing, I knew the ins and outs of it.

If you had to give advice to those who are curious for the first time, what would you tell them?

"If your curious try saline, try it for a year. Literally. See how you stretch, if your comfortable in day to day life."

"The bigger, the better." Or do you think there is a limit?

"Yes... there is a limit. Be smart and be mindful. There is "horny" brain and mindful brain. Be smart and listen to your body."

Finally, thank you for sharing, and even more so if you could dedicate a few words to us.

"It is amazing to be a part of this. Just remember to be smart and mindful. It's easy to go wild and grow and grow but we only have one body so take it slow and be smart."
